

Important Information From Our Health Insurance Carrier

The Transparency in Coverage rule requires health plans and insurers to disclose pricing information via Machine Readable Files (MRF) by July 1, 2022. Health plans must generate two MRFs that contain:

- Negotiated rates for in-network providers
- Billed charges and allowed amounts paid for out-of-network providers

Aetna will publish this information on [Aetna.com](https://www.aetna.com) on **July 1, 2022**.

Aetna will update the files each month and ensure they contain the most up-to-date information.
